Glossary

Value	The total value of the trade/position, where the quantity is multiplied by the price.
Closed result/Realised return	The total result/return from closed positions during the period.
Open result/return	The total floating result/return on your open positions, calculated since they were opened.
Open result/return change	The change in the floating result/return of your positions between the start and the end of the statement period.
Account value	The sum of the open positions and cash in the account at the end of the specified period.
Instrument currency	The currency in which the instrument is denominated and traded.
Order ID	A unique identifier for an order. One order can have multiple fills.
Dividend adjustments	A cash credit or debit applied to your account to mirror a dividend payment on the underlying asset. Credits apply when you hold a long position, and debits apply when you hold a short position.
Dividends	Refer to the portion of a company's earnings distributed to shareholders. The amount is usually distributed based on the number of shares each shareholder holds.

FX Rate	- Executed trades: The exchange rate applied at the time of trade execution. - Open positions summary: The end-of-month Bloomberg rate, provided for guidance only.
Transaction currency	The currency in which the transaction is executed. This can be the primary currency of the account or the wallet currency in the cases of multi-currency accounts.
WHT (Withholding tax)	A tax deducted at source, often on interest or dividends paid to non-residents. The WHT rate is the percentage applied to these payments.
Session	The session when the trade has been executed, allowing clients to differentiate between orders during regular, extended (pre and after) market and overnight hours.
Bonus	Transactions that involve the allocation of additional value, such as free shares, cash rewards, or rights issues.
Other	Includes all transactions, not covered by the main categories, such as adjustments and stock splits.
Third-party fees	In the Overview, showing the sum of Exchange and government fees, and ADR fees.
Exchange and government fees	All mandatory charges imposed by authorities, including items like stamp duty, financial transaction taxes, PTM levy, FINRA fee, SEC fees, and withholding tax.
ADR fee	An administrative fee for holding American Depositary Receipts (ADRs). This small cost is from the depository bank that manages the stock, and we pass it directly to you—typically \$0.01 to \$0.05 per share.
Overnight interest	A daily charge or credit applied to your account for holding a CFD position overnight.

Disclosures

The Overview is presented in the primary currency of the account. For multi-currency transactions, the amounts are converted using the live interbank exchange rates at the time of the transaction.

The Cash breakdown displays the value of each currency wallet in its respective currency and also in the primary currency of your account. The value shown in the primary account currency is converted using the live exchange rate from the last day of the month for which this statement is generated.

All transactions' execution times are in UTC. All open positions are valued at the bid/offer price at 22:00 (UTC) for valuation purposes. Margin calls are subject to change, and the amount due for immediate payment may vary. CFD Overnight interest is applied to positions held open between 1 March 2026 at 22:00 (UTC) and 2 March 2026 at 21:59 (UTC). See our [Terms and fees](#) for more information.

Invest transactions executed on an exchange follow the standard equity settlement cycle of trade date plus two days (T+2), although this period may occasionally be extended due to operational reasons. As outlined in our [Terms](#), in the unlikely scenario that a transaction fails to settle, it will be cancelled, and your account will revert to its state before the transaction took place. Your statement, received at the time of a transaction, will state if the specific transaction was executed on an exchange.

Where a portfolio transfer was executed in your Invest Account, the execution price for Transfer in would be the price at which an investment was bought, as provided by the client during the transfer. Its accuracy is the sole responsibility of the client. For Transfer out, the execution price would be the price at which the investment was bought.

The statement includes pending orders as of the time it is generated; any orders placed or cancelled afterwards are not shown. Clients are encouraged to regularly check their account activity on the online platform to stay informed of any changes.

The Share lending summary reflects the interest accrued from the share lending program this month. The interest earned is based on your participation as detailed in the 'Share Lending' section of our [Invest Terms](#). Please note that while you remain the beneficial owner of lent shares, you cannot exercise voting rights, and any dividends are paid as manufactured payments by T212.

Your money is held and protected under the FCA Client Money Rules (CASS 7) and your safe custody assets, including cash in QMMFs and collateral are held and protected under the FCA Safe Custody rules (CASS 6).

Please note that you are responsible for checking your statements and informing us of any discrepancies within 24 hours of receipt. After this period, all deals will be deemed confirmed by you. This message and all attachments have been sent in confidence to the addressee's attention only. If you have received it by mistake, please let us know by contacting us at info@trading212.com.

When investing, your capital is at risk and you may get back less than invested. Past performance doesn't guarantee future results. Trading 212 is a trading name of Trading 212 UK Ltd.
